

National Web Portal Framework

Border Guard of Bangladesh once rescued a mentally imbalanced person from a border area of Satkhira district. The rescued one could only mention names of two places 'Jessore district' and 'Sreedharpur union'. A Digital Center entrepreneur Mr. Raju of Satkhira district looked into the Nation web Portal and found the contact information of a Digital Centre entrepreneur of Sreedharpur union. He phoned him to know if he was aware about any such missing person from his locality. Soon the Sreedharpur Digital Centre entrepreneur gathered information and found out that a mentally imbalanced person who came out of a jail had been missing from his area for some time. Thanks to the Nation web portal which has connected thousands of offices in one framework that such quick flow of information has become a reality.
