We can look forward to a world where human creativity and the great achievements of our age in science and technology will be able to shape a better future based upon sharing technology and resources on a global scale so that people everywhere can enjoy the minimum conditions of a decent life.

Father of the Nation
Bangabandhu Sheikh Mujibur Rahman
Speech at the 29th Session of the UN General Assembly

There is no alternative to using modern technology to achieve the goal of building a Smart Bangladesh. Through the assured utilization of Artificial Intelligence, the Internet of Things, Augmented Reality, Virtual Reality, Robotics, and Big Data combined with digital technology, the government aims to economically enrich Bangladesh.

Hon’ble Prime Minister
Sheikh Hasina
The visionary leader behind Smart Bangladesh and the architect of modern Bangladesh

Find your own Innovations and Visions, Find your Ideas, Find new Technologies, Don’t Imitate, rather Innovate

Sajeeb Wazed Joy
Hon’ble ICT Adviser to the Prime Minister, Architect of Digital Bangladesh
Digital Bangladesh

ICT is a cornerstone of the economy, significantly contributing to national income, revenue, and employment

Ensured security for all

Restablishment of research for all fields

Implementation of short, medium & long term plans done in a concerted manner

Establishment of 15 Coordinated Sub-Committees, led by Hon’ble Prime Minister Sheikh Hasina
Digital Bangladesh has laid the foundation for Bangladesh to achieve Smart Bangladesh. Digital Bangladesh saw the transformation of a century-old traditional system of public service delivery into a modern, technologically-based process for delivering information, services, transactions, and overall governance. This monumental shift set the stage for an inclusive and advanced Smart Bangladesh, marking a significant leap forward to Bangladesh’s Vision 2041.

On December 12, 2022, Hon‘ble Prime Minister Sheikh Hasina announced the vision of building a Smart Bangladesh by the year 2041. She outlined four pillars for building a Smart Bangladesh: Smart Citizen, Smart Economy, Smart Government, and Smart Society.

We are envisioning to build Smart Bangladesh by 2041.
